Toyota Camry - Repair7

For 2AZ-FE and 2GR-FE models

This generation of Camry saw even greater differentiation between American market (and Japanese domestic market) Camry, and the Asian market Camry. The Asian Camry has a larger body size targeted at a higher end market, priced just below entry level German luxury models.

The same Asian Camry is also sold as the Toyota Aurion in Australia, fitted with a 3.5 V6 to compete against large Australian sedans like the Ford Falcon and Holden Monaro. The standard Camry (similar to American-Japanese market models), fitted with smaller 4-cylinder engines continue to be sold alongside the Aurion.
